## Provisional Programme

## Synchrotron Radiation in Earth, Space \& Planetary Science - <br> Exploiting the UK's newest facility

10 -11 Nov 2010
Venue: G59, Diamond Light Source

| Day 1 : Wed. 10 Nov |  |  |  |
| :---: | :---: | :---: | :---: |
| Item | Topic | Presenter | Time |
| 1. | Registration + buffet lunch (Diamond House) |  | 12:00-13:00 |
| 2. | Welcome \& Introduction | Trevor Rayment <br> (Physical Sci. Director, DLS) | 13:00-13:10 |
| 3. | Diamond Facilities | Chiu Tang (DLS) | 13:10-13:40 |
| 4. | Time travel by synchrotron | Monica Grady (Open University) | 13:40-14:10 |
| 5. | The Application of High Energy X-rays to Study Materials at Extreme Conditions | Pete Chupas <br> (APS, USA) | 14:10-14:40 |
| Break |  |  |  |
| 6. | Laboratory studies on the formation and spectral properties of cosmic dust | Cornelia Jäger <br> (Jena, Germany) | 15:00-15:30 |
| 7. | Phase Diagrams for Earth Materials at Extreme Conditions | Mike Walter (Bristol) | 15:30-16:00 |
| 8. | Crystallography of planetary ices and hydrates | Dominic Fortes (UCL) | 16:00-16:30 |
| 9. | Tour of Diamond |  | 16:30-17:30 |
| 10. | Poster Session |  | 17:30-19:00 |
| 11. | Evening dinner in R22 Restaurant: 19:00-22:00 hr |  |  |

Day 2: Thu. 11 Nov

| Item | Topic | Presenter | Time |  |
| ---: | :--- | :---: | :---: | :---: |
| 1. | Microfocus Spectroscopy of Cometary and <br> Martian materials | John Bridges <br> (Leicester) | $09: 00-09: 30$ |  |
| 2. | Earth and Planetary science at the high <br> pressure beamline ID27, ESRF | Mohamed Mezouar <br> (ESRF) | $09: 30-10: 00$ |  |
| 3. | Characterizing the dust around stars | Nye Evans <br> (Keele) | $10: 00-10: 30$ |  |
| 4. | Structural distortion of single-crystals of <br> Al,Fe-bearing MgSiO3 perovskite at <br> pressures of the lower mantle | Tiziana Boffa-Ballaran | $11: 00-11: 30$ |  |
| 5. | How the NASA Stardust Mission Collected <br> Cometary and Interstellar Dust in <br> Hypervelocity Impacts and How We Then <br> Analyzed it in the Lab | Mark J. Burchell <br> (Kent) | $11: 30-12: 00$ |  |
| 6. | Discussion \& Summary | $12: 00-12: 30$ |  |  |
|  | Close |  |  |  |
