

BAG/LTP progress guidance

The Peer Review process requires a full set of proposal reports to be in place and for the most current science and reporting templates in UAS to be used.

The 4 scenarios outlined below represent the states your BAG/LTP could be in.

Please identify the relevant one for your BAG and submit accordingly.

Screenshots in the below refer to views you may have when looking in the proposal on UAS.

(Note that the images have had redactions applied in the form of grey boxes)

The following definitions may help when you look at the stages of the BAG/LTP:

* *Draft* is displayed when a submission is due/expected

* *Decision Pending* is displayed when a submission is ready to review (visible once proposal is submitted)

* *Open* is displayed when a submission has been reviewed

* *Report Pending* is displayed when an experiment report is due/expected

* *Closed* is displayed when an experiment report is uploaded and the submission is completed

NOTE: Uploading a report for an AP will cause the displayed state for that AP to transition to Closed.

1. In the case of a BAG/LTP with its 1st AP open in AP32

- Submit a request for time on the BAG/LTP in AP33 (Apr-Sep-23) in UAS
- Reporting: **No report** is required - These BAGs/LTPs will not have had any time yet in AP32 (as that starts in Sep-22).

4. In the case of a BAG/LTP with its 4th AP open in AP32

- If the BAG/LTP is in the 4th AP and **no continuation** is needed, *reports for AP31 will still be required (once you have had time in AP32 the report will also need to be submitted for that period)*
- **For continuing BAGs:** submit a (new) continuation proposal for AP33 (Apr-Sep-23)

If you wish to continue this BAG you can find the continuation link on the proposal view:

Role	Access Route	Outstanding Action(s)	
Principal Investigator	Block Allocation Group (BAG)	Submit Report »	<div style="border: 1px solid #ccc; padding: 5px; display: inline-block;"> Copy Continue in new Proposal </div>

- Reporting: You need to upload **Final (18 month) report** in UAS – this will cover the **full extent of the BAG** until this point
